

# Does Geography Matter?

## The European Council torn (or divided) by North and South, East and West

11 May | 15:00 CET | Zoom

Europe is often claimed to be a divided continent. Is geography the main factor behind these divisions and in which sense? How is geography related to other issues? These questions will be discussed by a group of prominent experts in a webinar organized jointly by the University of Cologne and the Swedish Institute of International Affairs.

**Annika Ström Melin** | Independent writer, journalist and lecturer

## Jean-Monnet Project

*Teaching and Researching the European Council: Enhancing and disseminating knowledge on a key institution in challenging times*

### TRACK Objectives

Regarding political and academic challenges, TRACK responds to an ongoing need to provide regular offers for teaching and research on the European Council (EUCO) as a key institution. In view of known and unknown challenges in the EU, TRACK focuses on the EUCO's role in the EU's policy-making and in shaping the EU's future. By identifying challenges for Europe, TRACK analyzes and assess the EUCO's activities along five dimensions (history, real world functions, internal decision-making, impact on the EU's institutional architecture, and lessons for teaching and research).

#### Academic Analysis
